Our pulp range consists of a variety of multipurpose products, created from recycled pulp material, making them easily disposed of in any type of macerators. Each product is single use to lessen the risk of cross contamination. These high quality products ensure enhanced patient acceptance and comfort, while representing great value for money for the purchaser. The strong structure of these products makes them sturdy and easy to carry when full.

Each product in this range is compliant with the Medical Devices Directive 93/42/EEC Class 1 and British standard PAS29:1999

PHURI120 Square Male Urinal

Features

Design: Fits standard dispensers and holders. The flat rear end surface allows the product to stand easily, while the flat bottom surface keeps it steady when standing.

Smooth Opening: The smooth finished opening enables controlled pouring.

Quality: The high quality enhances patient acceptance and comfort; this product represents good value for money.

Disposable: Easy handling increases hygiene while reducing the risk of contamination.

Recyclable: Made of recycled materials and easily disposed of in all types of macerators.

Case Quantity

120 pieces per case

Specifications

Code PHURI120

Capacity:	900ml
Material:	Paper pulp
Size:	200L x 110W x 117H (mm)
Weight:	38g ± 4g
Compliant with:	<ul style="list-style-type: none"> • Medical Devices Directive 93/42/EEC Class 1 • British Standard PAS29:1999
Disposable:	By maceration in accordance with PAS29:1999
Fluid Resistance:	Standard: PAS29:1999
Fluid:	Water
Resistance Time:	>4 Hours
Resistance Temp:	35°C (±3°C)

PHURI046 Bulbous Male Urinal

Features

Quality: This popular bulbous shaped urinal is shaped for easy patient acceptance and comfort, and represents good value for money. Fits standard dispensers and holders. The flat rear end surface allows the product to stand easily and the flat bottom surface keeps it steady when standing.

Smooth Opening: The smooth finished opening enables controlled pouring.

Disposable: Easy handling increases hygiene while reducing the risk of contamination.

Recyclable: Made of recycled materials and easily disposed of in all types of macerators.

Case Quantity

100 pieces per case

Specifications

Code PHURI046

Capacity:	875ml
Material:	Paper pulp
Size:	260L x 105W x 125H (mm)
Weight:	38g ± 4g
Compliant with:	<ul style="list-style-type: none"> • Medical Devices Directive 93/42/EEC Class 1 • British Standard PAS29:1999
Disposable:	By maceration in accordance with PAS29:1999

Case Quantity

200 pieces per case

Specifications

Code PHCUP008

PHTRAY04 Autoclave Trays

Polyco®

BODYGUARDS

Pulp Products

Features

Design: This range of trays consists of four sizes. They can be utilised for a number of tasks conducted in theatres, CSSD's and also at ward level. They can be used for sterile and non-sterile procedures, including carrying instruments and syringes, and can also be included in theatre packs. The flat bottom surface keeps it steady when standing.

Autoclavable: The product goes through three sterilisation methods without loss of form or function.

Heat Pressed: For a smoother finish and flatter surface, minimizing residual particles.

Strong: The rolled edges improve strength, supporting the weight of contents when full. Easy to store and separate (stackable).

Disposable: Easy handling increases hygiene while reducing the risk of contamination.

Recyclable: Made of recycled materials and easily disposed of in all types of macerators.

Specifications

Small - PHTRA041
